

On October 19th, a Facebook poll was conducted with the following question:
During this tough economic climate, if your home or business was in need of many major expensive renovations to all of these at one time – exterior, interior, HVAC, electrical, plumbing, roof, doors, flooring, windows, garage, driveway, parking lot, etc., which one of these answers applies to you?

- 71% of respondents will prioritize one essential project now and wait with the others.
- 40% of respondents can't afford to do any projects at this time, & not sure when they will be able to with this economy.
- 30% of respondents will wait on ALL projects until they can save up the money and/or the rates to borrow go down.
- 10% of respondents cannot afford any projects at this time & need help with their daily living expenses.
- 6% of respondents have money to do only some projects at this time.
- 3% of respondents have enough money to do all projects at one time.
- 3% of respondents don't have the money to take on all projects but will borrow at a higher rate of interest in order to get everything done now
- 3% of respondents have money to do all the projects because of a fund set aside.
- 3 percent of respondents have money to do all the projects with no fund set aside.
